

Pivot Health Helps Fill The Gaps in Insurance Coverage for Consumers And Provides Exceptional Income for Agents

What is Pivot Health?

Pivot Health is a unique solution for consumers, helping them deal with the problems created by high deductible health insurance plans. It fills the gap between what regular health insurance pays, and what your customers have to pay out-of-pocket. And it wraps both non-insurance benefits, and insurance coverage, into a single, affordable package for families or individuals. The plans are part of a package offered by Communicating for America — a 40+ year membership association.

What is Latitude?

Latitude is the name of Pivot Health supplemental plan options, which includes insurance coverage provided by Fidelity Security Life Insurance Company, an A- rated carrier by A.M. Best.
